Forecast for Friday 16 Oct 2020

Weather: A chilly start with patchy fog and low cloud lifting to leave a largely dry and bright morning. However, cloud will increase through the afternoon, especially across eastern slopes, bringing the risk of a few showers

Chance of cloud free mountain/hill tops above 800m: 70-90% with occasionally broken cloud over the summits, but reducing to 30-40% later in the day with cloud becoming extensive above 500m in the east, and occasional in the west.

Visibility: Mostly good or very good, but reducing to 5-10km in any showers, and poor or very poor in mist, fog and low cloud.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling rather chilly out of the sunshine, despite relatively light winds.

Forecast for Saturday 17 Oct 2020

Weather: Rather cloudy with the risk of the odd light shower, although western parts are likely to see some brighter spells as well.

Maximum wind: Easterly 10-15mph, gusting 20-25mph.

Chance of cloud free mountain/hill tops above 800m: 40-60%, with extensive cloud above 800m and occasional patches down to 500-600m in the east.

Visibility: Good, but only a few kilometres in showers and very poor in hill fog.

Temperature: **Valleys:** Plus 5, perhaps plus 2 C in some valleys, rising to plus 11C
At 800m: Plus 4 C
Freezing level: Mostly above the tops, but close to summits early and late in the day
